CINEBOT MAX

Motion Control Cinebot

House

CINEBOT MAX is a small motion control robot crafted for top-tier live-action filming like the Cinebot Mini, but with the additional reach and payload you can expect from larger rigs. Operators have the flexibility to craft movements manually using PushMoco® or choose enhanced precision with Flair. It's easy to use, portable, and is able to fit through standard doorways simplifying filming across different locations, be it on-site or in a studio.

RATES

Shoot Day	\$3500/day	MoCo Operator (IATSE 667 & non-union)	\$110/hour
Program Day	\$1,500/day	Moco Location Scout (within ACCP Boundary Zone)	Please inquire

GENERAL INFO

Under two hours are needed for the Cinebot MAX to be offloaded and prepared for programming.

Accessories Available: Turntable and Stand alone motor (high-speed).

Cinebot MAX can trigger or be triggered by a wide variety of systems.

Use the PushMoco mode to set keyframes by moving the camera with your hands.

Incredibly location friendly, fitting through standard sized doorways and weighing considerably less than the standard MoCo Rig.
